

Mazes vs Pathfinding (algorithms)

Robert A Lane

Abstract—READ CONC AFTER ABSTRACT TO DOUBLE
CHECK IF PAPER IS WORTH USING

This paper demonstrates my experiment to run various
pathfinding algorithms against differing maze generation al-
gorithms.

I. INTRODUCTION

II. LITERATURE REVIEW

might not need

III. RELATED WORK

what was the paper, defined by the author(surname) -¿ sum-
marise the paper, bit you need?

i think mine is a planning around ai as searching?? ai aren't
learning anything

The Experiment

IV. THE MAZE ALGORITHMS

maze algorithms used will be from Jamis Buck's book
Mazes for Programmers[1]

section on the maze algorithms/tree/graph gen algorithms I
am using will have subsections

V. THE PATHFINDING ALGORITHMS

section on pathfind/tree/graph search algorithms i am using
USE ϵ - GREEDY

will have subsections

VI. RESULTS

VII. CONCLUSION

VIII. FUTURE WORK
